

# Loop

Loop is a standing or pendant luminaire with a warm and comforting light which is extremely pleasing to the eye. The lighting direction can be easily altered by tipping the lighting ring. In the same easy way you may choose direct or indirect lighting.

The polycarbonate honey comb material has a comfortable anti-dazzling effect.

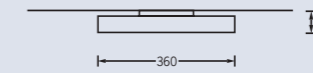

The body of loop's lighting ring is made of cast aluminium. To guarantee stability, it's feet are made of steel. The surface is silver coated.

Design: Heinrich Fiedeler

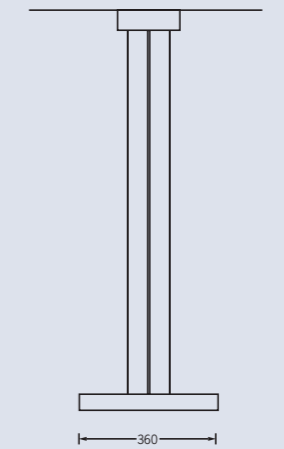

## Ceiling-mounted luminaire

Cast aluminium: silver  
Diameter: 360 mm  
Hight: 45 mm  
Lamp: 1 x T5 ring tube, 55 W
